INTRODUCTION

HIGHLY VISIBLE MARKS. BELOW GROUND AND ABOVE.

AEROMARK® Mine & Survey Marker 360° Jet is a quick drying, non-flammable marking spray paint used for vertical & horizontal marking applications in below or above ground conditions.

It is designed for creating highly visible temporary markings for mine & survey marking applications as well as construction, landscaping, civil works & surveying.

AEROMARK® Mine & Survey Marker 360° Jet adheres well to rock & rough, uneven surfaces which may be damp, dry, or dusty.

TYPICAL APPLICATION AREAS

MINING

SURVEYING

CONSTRUCTION

CIVIL WORKS

LANDSCAPING

GEOTECHNICAL

FIRE-SENSITIVE ENVIRONMENTS

NON-FLAMMABLE BY FORMULATION

AEROMARK 360° JET is formulated without flammable solvents, making it a non-flammable spray paint specially developed for fire-sensitive environments.

This makes it suitable for use in fire-sensitive situations where conventional solvent-based aerosols cannot be used — including underground mines and other hazardous areas where such products are not permitted.

Specifically developed for underground mining and other environments where ignition sources cannot be tolerated, this critical advantage supports compliance with strict mine safety requirements and enables the product to be specified with confidence for both underground and surface operations.

**NON-FLAMMABLE BY DESIGN
SAFETY WITHOUT COMPROMISE**

FEATURES & BENEFITS

BUILT TO PERFORM. DESIGNED TO BE SEEN.

AEROMARK® Mine & Survey Marker 360° Jet combines rugged performance with unmistakable visibility, giving surveyors, miners, and construction teams a marking solution they can rely on in the toughest conditions.

Engineered to perform where it matters most — above ground, below ground, and everywhere in between.

 Economical colour range for highly visible markings	 Designed for above or underground applications	 Does not contain CFC's ozone depleting substances, lead, or chromates
 Non-flammable & can be used for fire sensitive situations	 Can be used on damp, dry, or dusty surfaces	 Fast drying & will not wash away when dry

EXTEND THE REACH OF YOUR AEROSOL CAN

AEROEXTEND® AEROSOL ARM

The AEROEXTEND® Aerosol Arm is designed to help you mark ceilings and higher lying areas that would otherwise require ladders or lifting equipment in order for you to reach and effectively mark those areas.

- 1

Shift nozzle holder sideways
- 2

Slide the can in
- 3

Untangle the rope
- 4

Pull the rope to spray

- Light-weight
- Single can holder
- Pullable rope to release spray
- Perfect for far reaching marking
- Extendable pole from 2.5m up to 4.8m

MARKING WAND	MARKING WAND WITH WHEELS
— User friendly upright application — Trigger-spraying lever — Quick & easy marking — Comfortable arm rest — Single aerosol holder — Aluminium rod — Light-weight 	— Single aerosol held in an inverted position — User friendly upright application — Quick & easy marking — 2-wheel metal rod — Various surfaces
