AEROMARK

MINE & SURVEY MARKER

**NON
FLAMMABLE**

**2M SPRAY
DISTANCE**

INTRODUCTION

HIGHLY VISIBLE MARKS.
BELOW GROUND AND ABOVE.

AEROMARK® Mine & Survey Marker Horizontal Jet is a quick drying, non-flammable marking spray paint used for vertical & horizontal marking applications in below or above ground conditions.

It is designed for creating highly visible temporary markings for mine & survey marking applications as well as construction, landscaping, civil works & surveying.

AEROMARK® Mine & Survey Marker Horizontal Jet adheres well to rock & rough, uneven surfaces which may be damp, dry, or dusty.

TYPICAL APPLICATION AREAS

MINING

SURVEYING

CONSTRUCTION

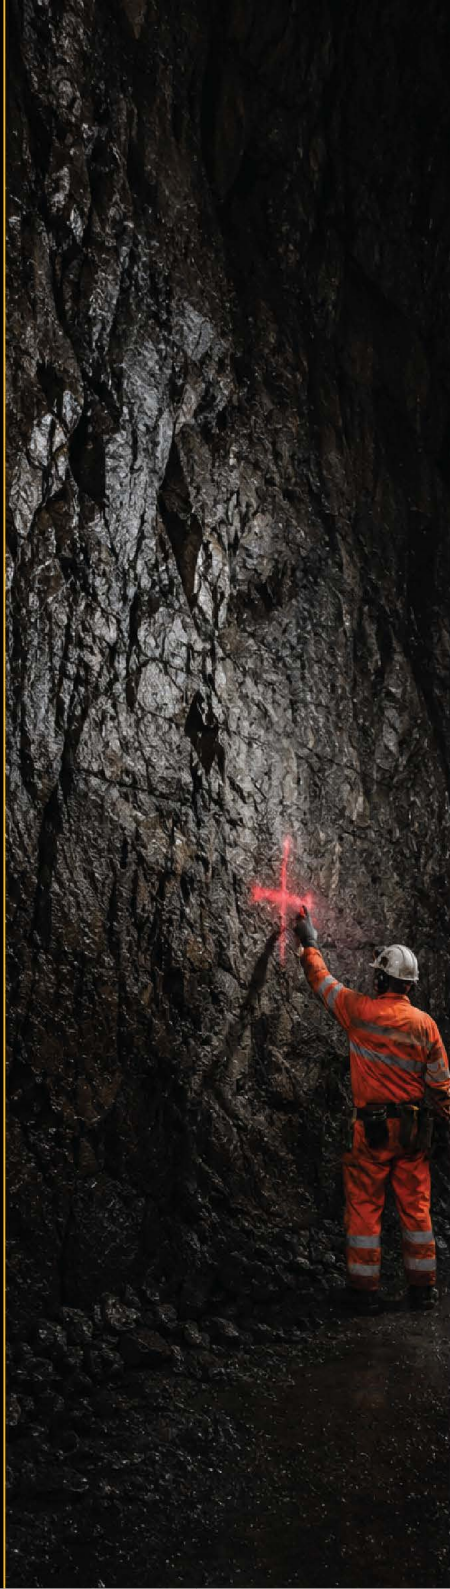

CIVIL WORKS

LANDSCAPING

GEOTECHNICAL

FIRE-SENSITIVE ENVIRONMENTS

NON-FLAMMABLE BY FORMULATION

AEROMARK® Mine & Survey Marker Horizontal Jet is a non-flammable spray paint specially formulated for fire-sensitive environments.

It contains no flammable propellants, making it safe to use in underground mines and other hazardous areas where conventional solvent aerosols are not permitted.

This critical advantage enables compliance with strict mine safety requirements and ensures the product can be specified with confidence for underground and surface operations.

**NON-FLAMMABLE BY DESIGN
SAFETY WITHOUT COMPROMISE**

FEATURES & BENEFITS

BUILT TO PERFORM. DESIGNED TO BE SEEN.

AEROMARK® Mine & Survey Marker Horizontal Jet combines rugged performance with unmistakable visibility, giving surveyors, miners, and construction teams a marking solution they can rely on in the toughest conditions.

Engineered to perform where it matters most — above ground, below ground, and everywhere in between.

 Economical colour range for highly visible markings	 Designed for above or underground applications	 Does not contain CFC's ozone depleting substances, lead, or chromates
 Non-flammable & can be used for fire sensitive situations	 Can be used on damp, dry, or dusty surfaces	 Fast drying & will not wash away when dry

MARK VERTICAL SURFACES AT WORKING HEIGHT

HORIZONTAL JET

OPTIMISED FOR HORIZONTAL MARKING

The AEROMARK® Mine & Survey Marker Horizontal Jet nozzle directs the spray sideways with the can held upright, engineered for marking rock faces, sidewalls and vertical surfaces at eye and working height.

A consistent, high-visibility line with a natural, comfortable hand position and no wrist strain.

Each Tray Contains
12 x 400g Cans
