DECORPLAST®

WALL TEXTURES

DECORPLAST® is a range of premium textured wall finishes, formulated with very high quality, hydrophobic pure acrylic binders and exterior-grade pigments — superior weather resistance, UV stability and long-lasting colour retention for exterior and interior walls.

Each finish is blended with carefully graded marble to create its own distinct aesthetic, and every one can be applied by trowel, by spray, or by spray-and-knockdown — the most versatile finishing options in textured walls. The result is a surface with luxury, personality and character.

RAL 7033

Pebble
RAL 7006

Crushed Stone
RAL 1011

For Darker colours like black or dark greys,
we can provide special heat reducing pigments.

The Finest Texture

SUEDE

Suede is the most refined finish in the range. A blend of fine, carefully graded marble particles creates a soft, mottled surface that resembles rough velvet or suede — subtle, tactile and non-repeating, with a depth that flat paint cannot achieve. The texture that made the range's name.

Texture, mastered by hand

TROWELLED

Hand-applied and worked tight, giving the classic suede finish: dense, even and softly shadowed, with the applicator's hand visible in every pass.

SPRAYED

Applied straight from the gun for a finer, more uniform suede stipple; the quickest route to the suede character on large wall areas.

KNOCKDOWN

Sprayed, then lightly flattened with a trowel pass: soft plateaus over the textured field, a relaxed, contemporary take on the suede surface.

The Sparkle In The Family

GRANULAR

Granular carries the same refined character as Suede, but its slightly larger marble granules give the surface a distinctly grainier appearance — an even, closely packed finish with a touch more life.

In direct sunlight the granules catch the light, giving the wall a subtle natural sparkle that shifts as the day moves.

Texture, mastered by hand

TROWELLED

Hand-worked into a dense, uniform granular field; the tightest, most even expression of the grain.

SPRAYED

An open, consistent granular texture straight from the gun, ideal for large façades where the sunlit sparkle does the talking.

KNOCKDOWN

Sprayed and flattened to create smooth caps over the granular field — grain and sheen in the valleys, calm plateaus on top.

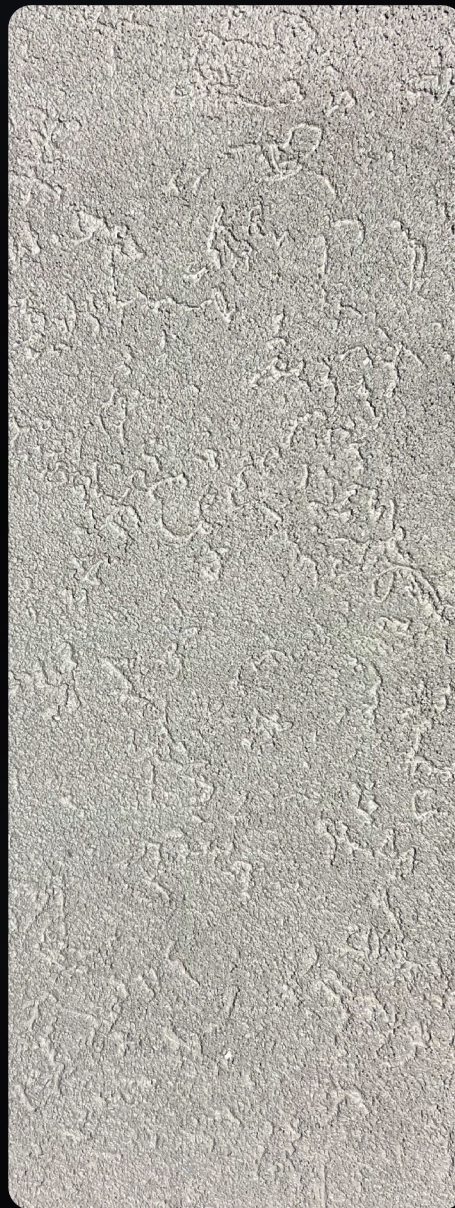

The Boldest Character

EXCEL

Excel shares Suede's refined base, but blended through it are larger graded marble stones — and they change everything. Worked under the trowel, these stones carve striations and grooves into the surface, in vertical or irregular circular patterns controlled entirely by hand movement.

No two Excel walls are ever the same. The boldest, most hand-crafted texture in the range.

Texture, mastered by hand

TROWELLED

The signature finish: the large stones cut visible grooves as the trowel moves, vertical or circular, each wall an original.

SPRAYED

The large stone gives a bold, pronounced stipple with strong shadow relief; maximum texture, minimum labour.

KNOCKDOWN

Sprayed and flattened: bold texture broken by smooth plateaus, the heaviest knockdown character in the range.
