

PLASTILINE®

WB COLD PLASTIC

THICK LAYER ROAD MARKING

THE **DURABILITY OF MMA COLD PLASTIC** COMBINED WITH
THE **SAFETY & SUSTAINABILITY OF WATERBORNE TECHNOLOGY.**

Cutting-edge waterborne technology for high-traffic roads, urban streets and highways —
a durable, lower-impact alternative to MMA cold plastic.

Durable Markings. Less Wear. Less Microplastics.

PERFORMANCE BENEFITS

EXCEPTIONAL DURABILITY

Withstands Heavy Traffic, Extreme Weather & UV Exposure

REDUCED MAINTENANCE COST

Long Lasting Performance Means Fewer Repaints & Lower Life-Cycle Costs

SUSTAINABLE CHOICE

Supports Eco-Friendly Initiatives While Maintaining Safety & Quality

IMPROVED ROAD SAFETY

Enhances Night Time Visibility With High Retro-Reflectivity & Excellent Bead Retention

APPLICATION BENEFITS

SAFE FOR APPLICATORS

Safer Handling & Non-Toxic To Applicators

NO ODOUR

No Odour During & After Application

CLEAN WITH WATER

Application Tools & Equipment Can Be Cleaned With Water

RAPID DRYING

Faster Turnaround Means More Linear Metres Of Marking Per Shift/Day

PLASTILINE® WB COLD PLASTIC SCREED

Ideal for thick application, for symbols in high shear & impact areas.

EXTRUSION

SCREED

8KG & 35KG KITS

STANDARD COLOURS

- WHITE
- YELLOW
- RED
- BLACK
- RAL 5017
Traffic Blue
- RAL 6024
Traffic Green
